SUBJECT: CHANGE PROPOSAL PE-25

25X1A

1. THE OFFSET CAPABILITY FOR THE MARK III HAND CONTROL WAS INCORPORATED IN THE SAC HAND CONTROLS BY THE MANUFACTURER, BAIRD, PREVIOUSLY. YOUR FLIGHT TEST OF SUBJECT PROPOSAL REVEALS NO INCREASED CAPABILITY OVER THE BAIRD MODIFICATION.

2. THE ETHICS OF THE SITUATION AS WELL AS THE LOGISTIC PROBLEMS PRECLUDE OUR APPROVING A PE MODIFICATION TO BAIRD EQUIPMENT WHEN A USEABLE BAIRD DESIGN EXISTS AND A CONTRACT TO COVER REPAIR OF THIS HAND CONTROL EXISTS.

3. REQUEST YOU NOTIFY PE OF FOG DISAPPROVAL OF THEIR ECP.
